

WOMEN'S CANCER RUN

WALK/RUN FOR AWARENESS & HOPE

VIRTUAL WALK/RUN | SAT/SUN, NOVEMBER 14-15TH

THE EVENT

WOMEN'S CANCER RUN LOS ANGELES, CA

A growing event attracting new participants and major donors, thousands of local supporters come together to fight against ovarian and breast cancer.

Supporting local organizations that provide medical care, vital education & services to regional under-insured or uninsured women. Truly a powerful event making a difference in LA County.

Entirely organized and produced by a volunteer committee made up of men and women affected by these cancers. Our committee embodies a fighting spirit and a drive to serve the greater good.

YOUR HOSTS

OVARIAN CANCER COALITION & VALLEY BREAST CARE FOUNDATION

The Ovarian Cancer Coalition of Greater California was formed in 1997. Alarmed by the lack of education and resources available, OCC unites the efforts of ovarian cancer survivors and individuals across California. Working to ensure that women get the early treatment they need and this deadliest of gynecological cancer can be conquered.

Founded in 2005, Valley Breast Care offers breast cancer screenings, biopsies, treatments and support services to LA County's uninsured & under-insured population. Maintaining multiple locations in Los Angeles County, VBC remains a leading womens health advocate.

NATIONAL AWARENESS

NATIONAL OVARIAN CANCER MONTH & BREAST CANCER AWARENESS MONTH

Scheduled to bookend National Ovarian Cancer and Breast Cancer Awareness months in September & October, Women's Cancer Run utilizes the wave of national attention drawn to these causes.

Our event serves as the call to action many supporters and donors look for in supporting women's health initiatives. Team building and peer-to-peer fundraising remain our most powerful tools at combating cancers affecting women. Join the fight against cancer and support us.

GOALS

WORKING TOWARDS A CURE

Current tests, treatment options and knowledge vary greatly between ovarian and breast cancer. There's no substitute for early detection so awareness and education remain our primary focus.

VBC's local clinics and OCC's donations to leading research support the long term goal of finding a cure. Support of any type is welcomed and is an investment into the future of our daughters, sisters and mothers.

Breakthroughs and the development of new treatment options can only come by way of the collective effort. Let us unite and fight together.

SUPPORT

CONNECT WITH US

Join us in the fight against cancer. Contact either organization and get involved today.
